

**6-7 May
2025**
Brussels Expo

THE FUTURE NEEDS YOU. NOW.

A NEW Trade Fair & Marketplace for Green Technologies

The kick-off conference is the first cross-industry B2B GreenTech conference to connect companies, experts and political decision-makers from across Europe. Taking place in May at the Brussels Expo, the Springboard Event will introduce the inaugural TransformIT Europe trade fair, scheduled to take place in 2026. The new platform for business will promote innovative sustainable solutions as well as marketing and distribution channels for green technology products. TransformIT Europe aims to elevate green tech businesses with innovative products and solutions, raise their profile in society and establish them more broadly in the European economy.

Highlights include keynote presentations from the most outstanding GreenTech innovations, the development of the 2026 event orientation, and the formation of the TransformIT Europe advisory board.

Springboard Event 2025

Hybrid format (on-site and virtual opportunities to participate at the show)

- Europe's largest Green Tech network
